

	Document ID	Title
1	US 5442759 A	Interactive online tutorial system with user assistance function for software products
2	US 5438355 A	Interactive system for processing viewer responses to television programming
3	US 5109337 A	Conceptual design tool
4	US 5041972 A	Method of measuring and evaluating consumer response for the development of consumer products
5	US 5025374 A	Portable system for choosing pre-operative patient test
6	US 5023435 A	Response form processing system
7	US 5019697 A	Data collection system using memory card
8	US 4992904 A	Hybrid contactor for DC airframe power supply
9	US 4988987 A	Keysafe system with timer/calendar features
10	US 4975841 A	Method and apparatus for reporting customer data
11	US 4908761 A	System for identifying heavy product purchasers who regularly use manufacturers' purchase incentives and predicting consumer promotional behavior response patterns

	Document ID	Title
12	US 4905080 A	Apparatus for collecting television channel data and market research data
13	US 4874935 A	Smart card apparatus and method of programming same
14	US 4866376 A	Cross-oil instrument having testing apparatus for vehicular sensor disconnection indication
15	US 4859837 A	Portable data carrier incorporating manually presettable processing modes
16	US 4851997 A	Local area network control apparatus
17	US 4839504 A	IC card system compatible with bank account system
18	US 4816904 A	Television and market research data collection system and method
19	US 4752677 A	Customer service system for use in IC card system
20	US 4749982 A	Intelligent card
21	US 4746788 A	Identification system for authenticating both IC card and terminal
22	US 4737858 A	Intensity controlled and aperture defining image generating system

	Document ID	Title
23	US 4677657 A	Voice recording card
24	US 4642685 A	Storing data relating to television viewing
25	US 4625276 A	Data logging and transfer system using portable and resident units
26	US 4603232 A	Rapid market survey collection and dissemination method
27	US 4539472 A	Data processing card system and method of forming same
28	US 4367402 A	System for keeping account of predetermined homogeneous units
29	US 4298793 A	Portable element for receiving, storing, displaying and outputting digital data, and a reservation device for use in a reservation system
30	US 4092524 A	Systems for storing and transferring data
31	US 4007355 A	Data-transfer system

	Document ID	Title
1	US 6058081 A	Optical drive system having servomotor operated relative to maximum quad sum signal
2	US 6061671 A	System and method for disaster recovery in an open metering system
3	US 6061664 A	System for facilitating the ordering and paying of services by means of a communication network
4	US 6065046 A	Computerized system and associated method of optimally controlled storage and transfer of computer programs on a computer network
5	US 6067107 A	Response capacity management in interactive broadcast systems by periodic reconfiguration of response priorities
6	US 6068661 A	Method of emulating synchronous communication
7	US 6070190 A	Client-based application availability and response monitoring and reporting for distributed computing environments
8	US 6069857 A	Optical disc system having improved circuitry for performing blank sector check on readable disc

	Document ID	Title
9	US 6071236 A	Method of determining mental health status in a computerized medical diagnostic system
10	US 6073112 A	Computer system for merchant communication to customers
11	US 6088717 A	Computer-based communication system and method using metadata defining a control-structure
12	US 6087644 A	Focus capture for optical disc system including detection of quad sum signal to close focus
13	US 6092197 A	System and method for the secure discovery, exploitation and publication of information
14	US 6091684 A	Optical disc system and method for changing the rotational rate of an information storage medium
15	US 6102287 A	Method and apparatus for providing product survey information in an electronic payment system
16	US 6104334 A	Portable internet-enabled controller and information browser for consumer devices
17	US 6119125 A	Software components for a building automation system based on a standard object superclass
18	US 6119101 A	Intelligent agents for electronic commerce
